

Health, Safety and Wellbeing Training

**Online training****Classroom training****Bespoke training**

BRE is at the forefront of research in the built environment and is owned by the BRE Trust, the largest UK charity dedicated to research and education in the built environment. BRE Academy's training and education programmes reflect BRE's prestigious legacy and is one of the main dissemination channels for our research findings.

We are the leading training provider for the built environment, offering a range of online and classroom based training. For corporates, we also offer bespoke training programmes customised to meet your specific needs.

To support progress and learning in this skilled industry, we offer recognised industry qualifications, accredited CPD hours and certificates upon successful completion of our courses.

Our Health, Safety and Wellbeing courses include:

- Airtightness Awareness
- Air Quality
- Asbestos Awareness
- Duty to Manage Asbestos
- Circadian Lighting
- Designing for Dementia
- Designing Out Unintended Consequences in Retrofit
- Electrical Safety Awareness
- Online Health and Safety Bundle
- Planning for Daylight and Sunlight
- Buying and Selling in Radon Affected Areas
- Radon Protective Measures for New Buildings
- Radon Reduction Measures

Did you know we offer a range of courses in BIM, BREEAM, CEEQUAL, Fire, Flood Resilience, Health & Safety, HQM, Leadership & Management, Legislation & Regulation, Sustainability, YellowJacket and more.
